DEFINITIONS

Coverage

Included in the Business Register are all Canadian businesses meeting at least one of the following three criteria:

- having a workforce for which they submit payroll remittances to Canada Customs and Revenue Agency or:
- having a minimum of $30,000 in estimated annual sales revenue or;
- are incorporated under a federal or provincial act and are active Federal Corporation Tax filers.

Establishment

The smallest grouping of production entities which:

- Produces as homogeneous a set of goods and/or services as possible.
- Does not cross provincial boundaries.
- Provides data on the value of output together with the cost of principal intermediate inputs used along with the cost and quantity of labour resources used to produce the output.

For example, a plant in the manufacturing industry which provides accounting information regarding the value of shipments (sales), direct costs and labour costs is considered a single establishment. Two stores in the retail industry may be considered one establishment if the accounting information for both these locations is combined when the business is reporting income.

Employment Category

- Codes give a range of employees only. Exact number of employees are not released.
- The establishments in the "Indeterminate" category do not have a workforce for which payroll remittances are made to Canada Customs and Revenue Agency. However, these establishments may have a workforce, which consists of, contracted worker, part time employees, family members or business owners. This information is unavailable, therefore the establishments have been assigned to this category.
